

*I'm aware, [Passwort], is your pass word. You don't know me and you're most likely thinking why you're getting this e-mail, right?*

*In fact, I actually setup a malware on the adult videos (pornographic material) web site and guess what, you visited this website to have fun (you know what I mean). While you were watching video clips, your internet browser began operating as a RDP (Remote control Desktop) with a key logger which provided me with accessibility to your screen and also web camera. after that, my software program gathered your entire contacts from your Messenger, Facebook, and email.*

*What did I do?*

*I made a double-screen video. First part displays the video you were viewing (you have a fine taste haha . . .), and next part shows the recording of your web cam.*

*exactly what should you do?*

*Well, in my opinion, \$2900 is a reasonable price for our little secret. You will make the payment through Bitcoin (if you don't know this, search "how to buy bitcoin" in Google).*

*BTC Address: 1Kh\*\*\**

*(It is cAsE sensitive, so copy and paste it)*

*Important:*

*You have one day in order to make the payment. (I have a special pixel within this e-mail, and right now I know that you have read through this mail). If I do not receive the BitCoins, I definitely will send your video recording to all of your contacts including friends and family, co-workers, etc. Nevertheless, if I receive the payment, I will erase the video immidiately. If you really want evidence, reply with "Yes!" and I will send your video to your 9 friends. This is a non-negotiable offer, so please don't waste my personal time and yours by responding to this email message.*
